- Making Friends For Life -

Don,

Hi my name is Brandon Bowen. Brian, my younger brother was in your shop last week to test drive an '89 964 C4 for Rob Cottle.

I just wanted to thank you for going out of your way to help Rob with his first Porsche purchase. With work rebuilding the engine, steam cleaning the car, and taking photos of the progress, you've gone way above and beyond the call of duty. I appreciate your efforts in making this an easy and hopefully the right decision for Rob.

I'm not sure he realizes how much you're helping him out. I think he's on his way to being a life long Porsche fan thanks to your efforts. Assuming everything else goes as planned - I'll do what I can to send you future business.

Thank you,
Brandon Bowen
