Hello John

I came to visit you with my friend on Saturday to check out your dealership. I was very impressed and glad you had the time to show me around the entire building, paint room, engine room, restoration room etc. I think you have a great program and choice of cars. I love the Porsches and I think it's great you guys have a warranty program. That was huge when I left the other day. I will come to you when I'm ready to buy my next Porsche. I'm gearing towards probably after Xmas to February.

Jeff Fraser
